

Instructional Design & Technology Graduate Certificates

IDT Certificate Programs

IDT offers three 12-credit certificates. The certificates provide minimum competencies in the field of instructional design within a given subset of the field (technology integration, corporate training, or eLearning). Certificates are intended for those already working in some capacity as an instructional designer but who lack an advanced degree in instructional design. Those seeking the full set of professional competencies of an instructional designer across all areas in preparation for entering the field of instructional design are encouraged to apply to one of the IDT master's programs instead. Courses taken for a certificate may also be transferred into any of the IDT master's programs at a later date.

IDT Certificate in K-12 Technology Integration

| Required Courses | | |
|------------------------------|--|-----------|
| IDT 520 | Instructional Systems Analysis and Design | 3 |
| IDT 525 | Development, Implementation, and Evaluation of Instructional Materials | 3 |
| Select two of the following: | | 6 |
| IDT 510 | Technology-Based Instruction: Applications and Methods | |
| IDT 540 | Digital Media and the Internet in Schools | |
| IDT 545 | Instructional Simulations and Games | |
| Total Credits | | 12 |

IDT Certificate in eLearning

| Required Courses | | |
|------------------------------|--|-----------|
| IDT 520 | Instructional Systems Analysis and Design | 3 |
| IDT 525 | Development, Implementation, and Evaluation of Instructional Materials | 3 |
| Select two of the following: | | 6 |
| IDT 530 | Introduction to Computer-Based Instruction | |
| IDT 545 | Instructional Simulations and Games | |
| IDT 580 | Introduction to Web-Based Instruction | |
| Total Credits | | 12 |

IDT Certificate in Corporate Training and Performance

| Required Courses | | |
|------------------------------|--|-----------|
| IDT 520 | Instructional Systems Analysis and Design | 3 |
| IDT 525 | Development, Implementation, and Evaluation of Instructional Materials | 3 |
| Select two of the following: | | 6 |
| IDT 545 | Instructional Simulations and Games | |
| IDT 560 | Instructional Design Consulting | |
| IDT 570 | Human Performance Technology | |
| Total Credits | | 12 |

Degree Delivery Options

The IDT master's and certificate programs are available for on-campus and distance delivery, making it possible to attain these degrees via distance delivery, on-campus attendance, or a combination of both. Online students and on-campus students are peers in the same class sessions and experience the same educational opportunities. Courses typically have a few synchronous (live) class sessions, where students may attend on-campus in the actual classroom or they may participate through our distance delivery system. In this manner, class lectures, discussion, presentation, and collaboration are done seamlessly, in a nearly identical fashion to traditional classes.

Asynchronous sessions (those done at the time and place of the students' choosing each week) are handled through a course management system. Students use these tools to read material loaded by the teacher, turn in assignments, communicate through message boards, participate in discussions through threaded discussion tools, take tests, and receive their grades. There are assignments and participation activities every week, whether the class meets live or not. In this way, students get the best of both worlds: the flexibility of online learning and the personal contact and connection of face-to-face instruction.
