The MSW program has an Advanced Generalist Concentration, preparing students for leadership roles in service, administration, and policy-making positions. Graduates master competencies that prepare them for effective practice with individuals, families, groups, organizations, and communities. Graduates work in a diverse array of human service settings, including mental health, family services, child welfare, schools, criminal justice, gerontology, and health care organizations and agencies.

The Advanced Generalist Concentration equips students for effective practice in highly under-served areas, including rural and reservation communities. These settings demand that students be able to synthesize and apply inter- and multi-disciplinary knowledge and skills to address needs in complex, multi-system service environments.

**Mission Statement**

The University of North Dakota’s Master of Social Work Program provides broad access to quality graduate education that prepares versatile advanced generalist practitioners with the necessary knowledge, values, and skills to enhance human well-being, to meet basic human needs, and to serve as leaders in their communities in North Dakota, the region, and beyond.

**Program Goals**

To prepare advanced generalist social work practitioners who:

- Have a strong identification with the social work profession, are committed to its highest ethical ideals, and inspire others to do the same.
- Continually strive to increase their cultural competence and understand and respect the inherent value of human diversity.
- Understand the forms and mechanisms of oppression and discrimination and advocate for social and economic justice.
- Synthesize and effectively apply a broad range of interdisciplinary and multidisciplinary knowledge and skills across practice levels.
- Have a passion for critical inquiry and a commitment to lifelong learning.
- Embrace their roles as change agents and leaders.

The MSW Concentration builds on a generalist foundation curriculum to prepare advanced generalist practitioners who assess, intervene, and evaluate to promote human and social well-being, while advancing practice and the broader goals of the Social Work profession. Advanced practitioners can tailor actions to changing circumstances, and continually refine their own practice through experience and self-improvement.

All MSW students must complete both Foundation and Advanced Generalist Concentration social work courses. Foundation courses are not offered through the Campus Program; instead, students who have a bachelor’s degree in a related field may apply to the Second Degree Program. Upon successful completion of the Second Degree Program, students are eligible to apply to the MSW Concentration Program. Advanced Generalist Concentration courses may be completed through the Campus Program, or the part-time Distance Program. The Campus Program may be completed in three semesters, and the Distance Program may be completed in two years for students with a BSW, or in as few as three years for students without a BSW.

**Admission Requirements for Concentration Program**

Applicants for the Concentration courses must meet the following standards:

- BSW from a CSWE accredited program.
- An undergraduate GPA of 3.00 overall or a GPA of 3.00 in the last two years of the undergraduate program.
- A grade of C or higher in a statistics course.
- Willingness to abide by the National Association of Social Worker’s Code of Ethics and the University of North Dakota Code of Student Conduct.
